

## Overview

Curvature gives you a new way to approach the procurement and maintenance of your critical infrastructure assets. All products are coded and designed to meet the same published specifications as the manufacturer equivalent and sourced from the same Tier-1 suppliers. Inventory is well stocked and readily available in Curvature's three distribution centers (AMER|EMEA|APAC) allowing for next-business-day shipments to nearly anywhere in the world with a lifetime warranty.

**Highest quality. Most reliable product. Truly global.**

## Customer Challenges

Whether you are in procurement or a technical role, below are some common pain points we solve.

Customer Need   Pain Point	Procurement	Technical
Fear, uncertainty, & doubt from the manufacturer		✓
Products unavailable due to EoS or EoL		✓
High cost of hardware	✓	
Forced upgrades or refresh cycles	✓	✓
Lengthy lead times from distributors, manufacturers & VARs	✓	✓
Limited warranty	✓	✓

## Business Benefits

- Well stocked and readily available globally
- Standardizing infrastructure
- Time savings with high level engineers and purchasing officers
- Flexible solutions conducive with multi-vendor environments
- Significant cost savings on CapEx

## Key Features

- Transceivers, network interface cards, memory, hard disk drives, solid state drives
- All new, high-quality, reliable equipment
- Lifetime warranty & advanced replacements
- Multi-vendor compatible (Drives, NICs, DIMM)

## Supported Storage Platforms

Product Categories	Product Descriptions	Common Compatible Manufacturers
<b>Transceivers</b>	1, 10, 40, and 100GB speed options SFP, SFP+, QSFP, CFP, X2, XENPAK, XFP, GBIC form factors	Cisco, Arista, HPE, Juniper, Force10, Dell EMC, Brocade, Adtran, etc.
<b>Dual In-Line Memory</b>	8, 16, 32, and 64GB capacities DDR3/DDR4, 1600 MHz to 2400 MHz	HPE, Dell EMC, Cisco, IBM, etc.
<b>Network Interface Cards</b>	PCIe Dual and Quad Port 1, 10, and 40GB Copper/RJ45, SFP+, QSFP+ Multi-vendor and OS compatible	HPE, Dell EMC, Cisco, IBM, etc.
<b>Hard Disk Drives</b>	Multi-vendor compatible Enterprise-Class SAS SFF 10K: 300, 600, 900, 1200GB SAS LFF 7.2K: 2, 4, and 6TB	HPE, Dell EMC, Cisco, IBM, etc.
<b>Solid State Drives</b>	Multi-vendor compatible Enterprise-Class SATA SFF: 240, 480, 960, and 1920GB	HPE, Dell EMC, Cisco, IBM, etc.

## FAQs

**Q: How do I know if Curvature brand products are reliable and will be compatible with my manufacturer switches and servers?**

**A:** Our advanced testing labs and proprietary CTE software (Curvature Testing Environment) ensures compatibility across multiple manufacturer platforms running different versions of software, both current and those no longer supported by the manufacturer. In the rare case of incompatibility or failure, we will troubleshoot or send advanced replacements when necessary.

**Q: Who manufactures Curvature brand products?**

**A:** Many manufacturers - such as Dell EMC, Cisco, and HPE – our source from Original Design Manufacturer (ODM). Curvature has established these same relationships and go straight to the ODM and Tier-1 suppliers for our brand equipment.

**Q: Will purchasing third-party products void my warranty or support with the manufacturer?**

**A:** No, according to the Magnuson-Moss Warranty Act, warrantors cannot require that only branded parts be used with the product in order to retain the warranty. This is commonly referred to as the “tie-in sales” provisions and is frequently mentioned in the context of third-party computer parts such as memory and hard drives.
