

Overview

Curvature gives you a new way to approach the procurement and maintenance of your critical infrastructure assets. All products are coded and designed to meet the same published specifications as the manufacturer equivalent and sourced from the same Tier-1 suppliers. Inventory is well stocked and readily available in Curvature's three distribution centers (AMER|EMEA|APAC) allowing for next-business-day shipments to nearly anywhere in the world with a lifetime warranty.

Highest quality. Most reliable product. Truly global.

Customer Challenges

Whether you are in procurement or a technical role, below are some common pain points we solve.

Customer Need Pain Point	Procurement	Technical
Fear, uncertainty, and doubt (F.U.D.) from the manufacturer		✓
Products unavailable due to EoS or EoL		✓
High cost of hardware	✓	
Forced upgrades or refresh cycles	✓	✓
Lengthy lead times from distributors, manufacturers & VARs	✓	✓
Lifetime warranty	✓	✓
