

curvature Storage Performance Assessment

Overview

Our clients demand instantaneous data access, across various applications, infrastructure and manufacturer products. And storage environments can be very complex with many unique components. Quick access to data is important to keeping the business relevant. Troubleshooting data performance can be time consuming and technically challenging. Curvature's Storage Performance Assessment can help our clients understand how these components are performing and offer professional assistance to remediate these performance issues. This approach creates a cost-effective, risk-averse performance strategy across multiple manufacturer storage platforms.

Customer Challenges

Customer Need Pain Point	Business	Technical
Slow data access	✓	✓
Poor application performance	✓	✓
Performance not scaling with capacity	✓	✓
Independent performance assessment	✓	✓

Business Benefits

- Conduct independent evaluation of storage performance, eliminating data IO bottlenecks
- Identification of failed components and how performance is impacted
- Provide actionable recommendations for customer to improve performance and mitigate risk
- Free up IT resources

Key Features

Methodology	Resources	Deliverables
<ul style="list-style-type: none">• Discovery• Analysis• Delivery	<ul style="list-style-type: none">• Project Management• Storage Consultants	<ul style="list-style-type: none">• Work with clients to gather relevant storage performance data and input• Perform detailed storage performance analysis• Conduct teleconference to review findings and recommendations• Provide soft copy of findings and recommendations

Supported Platforms

Performance Assessment Services are available for Dell EMC Clariion/Celerra/VNX and NetApp FAS storage systems.

Differentiation

- **Independent third-party analysis** provides non-manufacturer bias for a consistent storage performance assessment across multiple vendor platforms.
- **Certified storage consultants**, with 20+ years of manufacturer experience and multiple manufacturer certifications.
- **Global** reach anywhere in the world via remote deliverables.
- **800+ field technicians** available under a separate engagement to remediate identified storage issues or concerns if required.
- **Personalized delivery** specific to client's storage environment, with certified storage consultants.
