

Curvature Hardware Solutions

Whether you are building a new data center or merely upgrading existing hardware, we understand the challenges you face as a modern IT decision maker. Curvature provides networking, server and storage solutions that make IT the way it should be – straightforward and intuitive.

Cisco · Dell · HP · A10 · Arista · Brocade · Juniper

Pre-Owned Alternatives

Curvature offers you high quality, reliable, previous generation or new-in-box equipment from industry leading manufacturers. At 50%-90% cost savings, our gear is fully tested and configured with a less than 0.5% failure rate.

Authorized Partnerships

As a certified partner of Arista Networks, A10 Networks, Dell, HP, VMware, Brocade, DataCore and others, we give you access to the latest technology and best-of-breed products at the best possible prices.

The Result

Utilizing both new and pre-owned equipment puts the control back in your hands. Combining cutting edge new equipment with tested and proven pre-owned gear in a single, integrated hybrid solution can lower your Total Cost of Ownership, without sacrificing your technology requirements.

Maximize Your Budget and Extend the Life of Your Equipment

Don't be forced into upgrades. With a true lifetime warranty, keep working assets working, and extend the lifespan of your data center by choosing to buy equipment that the OEM has elected to stop supporting.

Quality Systems Certifications

- TL9000 is a comprehensive QMS that requires robust controls for organizations involved in telecommunications. Fewer than 1,500 companies hold TL9000 certification, and it's the highest international standard for telecom industry suppliers.
- C-TPAT (Customs-Trade Partnership Against Terrorism) certification is led by U.S. Customs and Border Protection and is focused on improving global supply chain security with respect to terrorism.
- ISO 27001:2013 is for Information Security Management Systems and is one of the most widely recognized and prestigious security standards available. Organizations with this certification are confirmed to be ISMS compliant and in line with the latest industry standards and best practices.
- R2 Responsible Recycling certification provides a standard, a common set of processes, safety measures, and documentation requirements for businesses that repair and recycle electronics.

Service Delivery

We stock equipment in our three distribution centers located in North America, Europe and Asia, enabling us to ship products to every major city in the world in a matter of days. 4-Hour, Next-Business-Day and Same-Day-Ship options available.

Asset Disposition

Exchange your existing equipment for cash or credit toward your purchase. Curvature offers the highest market value for your old equipment through a hassle-free asset recovery process.
